

Product Specification Sheet

C-10 C-10 Premium Art Gicleé Canvas – All Cotton

C-10 is a traditional all cotton gicleé canvas that has all of the warmth, character and individuality a canvas constructed entirely of all natural cotton should have. It's premium coated matte-textured surface makes C-10 the optimal choice for a variety of art gicleé applications where the artist insists on the texture, feel and body only an all cotton canvas can provide. As with any product constructed entirely of all natural materials, the canvas found beneath the gesso of each individual roll has it's own unique tint and hue, reflective of the area it was grown in, making each gicleé a uniquely individual print. Optimized for dye based inks, this canvas is perfect for the traditionalist who demands modern technical excellence in concert with the ambience that can only come from bounty of nature.

Properties

Coating: Polymeric Non-toxic
Surface: White - Matte
Weave: 76 x 32 all cotton
Caliper: .0183" (18.3 mil)
Weight: 395 g/m² (11.7 oz/yd²)
Whiteness (CIE Ganz 82): 112
Brightness (TAPPI T452): 94
Gloss (60°): 3.8

Ratings

Health – 0
Reactivity – 0
Flammability – 1 not spontaneously combustible

Environment

Functional temperature range – 50° to 85° Fahrenheit
Functional relative humidity range – 30% to 65%
Ink dry time – varies with type and amount of ink, relative humidity and temperature.

Inks

The inkjet coating of C10 is designed for use primarily with dye based inks. Although pigmented inks may be used, absent color adjustment, a minor color gamut difference may occur.

Applications

Fine Art Art Reproductions Murals

Handling & Storage

Store in cool, dry conditions around 70°F and 20-60% relative humidity
Always place in plastic sleeve when not in use. Never let roll lay flat on its side for extended period as damage could occur, store standing on end or suspended in box with end caps.
